ROOFING SLATE

Quarries and Fabricators of Natural Vermont Slate Products

Slate has been used for centuries to create beautiful roofs, renowned for resisting the assaults of rain, wind, and snow. With unique textures, soft colors and unmatched durability, it is the perfect marriage of practicality and beauty, enhancing any environment.

Camara Slate quarries and fabricates roofing slate that is ASTM Grade S-1 quality ensuring durability and structural performance for a lifetime. Slate is a natural product and like fingerprints, no two pieces are exactly alike... slight variations will occur in texture, thickness and shading. The combination of excellent appearance and performance has made Camara Slate a national leader for many roofing projects in the US and abroad.

Roofing Slate is Classified in Three Different Groups to Indicate the Degree of Color Change to Expect:

- Unfading - that over time the slate will have essentially no weather tones.
- Semi-Weathering - slate will change 10% to 25%, whereas weathering slate will change 30% or more.
- Weathering - continues to some degree throughout the life of the slate but does not diminish the longevity of the material.

Camara Roofing Slate has Withstood the Test of Time.

Slate is a hard, dense stone whose structural integrity has withstood the rigors of ASTM testing. This supreme roofing material has the following qualities:

- Last a lifetime / Environmentally friendly.
- Noncombustible / Fire proof.
- Resistance to acid.
- Low maintenance / Non staining.
- Impermeable to moisture.

For Beauty and Durability, a Cedar Roof is Second to None

Installation and repairs are simple, and if maintained properly, a cedar roof can outlast any roof built with traditional roofing materials. Made of the finest wood from sustainable forests, cedar is a natural bug repellent and will provide excellent insulation and protection for your home.

Cedar Shingle

Milled on both sides to create a smoother texture and uniform size, cedar shingles offer homeowners a classic, sophisticated look. Beautiful, durable, and extremely easy to install.

Western Red Cedar

Long favored by roofers, architects, and engineers, Western Red Cedar offers a distinctive appearance, and exceptional resistance to decay. A long-lasting, light-weight material, Western Red Cedar combines great beauty with superior strength and protection.

Cedar Shake

For a truly rustic appearance, nothing beats a cedar shake roof. Cedar shakes are thicker than shingles providing maximum protection from the elements and extreme weather conditions. The irregular sizes contribute to a shake roof's unique cottage-style look.

Single-Width and Multi-Width Slate

Synthetic roofing tiles have the look of natural materials, but without the maintenance of natural slate. Available in 12", 10", 9", 7", and 6" widths.

- 1/2" thick, twice the thickness of other synthetic slates.
- 8-11 VariBlend Color Options, depending on style. Limitless Color Blends. EcoBlend® Cool Roof Colors to reduce heating and cooling costs.
- 50-year warranty.

Bellaforté Slate

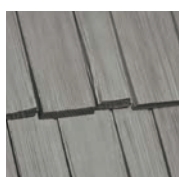

The patented design of Bellaforté Slate has reached exceptional design and testing standards, enhancing the beauty of any structure with the look of authentic natural slate. Available in 12" tile widths.

- Snap-Fit Tile creates built-in rain gutter/ leading edge tab for improved wind performance.
- 8 VariBlend Color Options with Limitless Color Blends. EcoBlend® Cool Roof Colors to reduce heating and cooling costs.
- 50-year limited warranty.

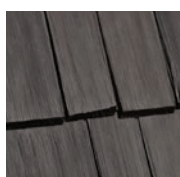

DaVinci polymer shake and slate tiles look incredibly natural, but are much more durable than Mother Nature's creations. Our tiles offer the beauty to make your home magnificent, minus the maintenance and frequent repair. DaVinci tiles are designed to withstand the most severe weather conditions, resist fading and are impervious to rot, mold and mildew. And every tile reflects the craftsmanship and artistry that accompanies the DaVinci name.

Weathered Gray

Single-Width and Multi-Width Shake

DaVinci synthetic cedar shake tiles resemble the hand-split shake tile found on upscale residences around the world, but require none of the maintenance. Available in 9", 8", 7", 6", and 4" widths.

- 5/8" profile deepens shadow lines for a more dramatic look.
- 6 Authentic Cedar Colors with limitless Color Blends. EcoBlend® Cool Roof Colors to reduce heating and cooling costs.
- 50-year limited warranty.

Bellaforté Shake

Bellaforté Shake roofing tiles are a durable and low maintenance way to achieve a natural hand-split cedar shake look with slanted sawn edges and staggered lengths. Available in 12" tile width and multiple profiles.

- 1" thick, reminiscent of jumbo shakes.
- 5 Authentic Cedar Colors with Limitless Color Blends. EcoBlend® Cool Roof Colors to reduce heating and cooling costs.
- 50-year limited warranty.

Fancy Shake

With the refined look of machine-sawn shake, Fancy Shake polymer roof tiles provide a cleaner, more sophisticated appearance than traditional hand-split shake. Available in 12", 7", and 5" widths.

- 7/16" thick/multiple widths create a more natural appearance.
- 5 Authentic Cedar Colors with Limitless Color Blends. EcoBlend® Cool Roof Colors to reduce heating and cooling costs.
- 50-year limited warranty.

LUDOWICI

ROOF TILE

Since 1888

For over a century, Ludowici's clay roof tile has been renowned by architects for its beauty and durability. A roof crafted from Ludowici roof tile typically lasts well over a century, and is backed by the industry's most comprehensive warranty program, including a 75-year warranty.

Lanai Tile

Lanai is a beautiful, interlocking tile with a sandblasted, rough surface and a square bottom edge.

- Weathering gives the tiles a rough-aged look and texture.
- 33 color options.
- 75-year warranty.

Lanai 14"™

Spanish Tile

The most popular tile in Ludowici's product line, Spanish tile is prized for its simple, one-piece barrel design which provides a pattern of distinctive ripples across the roof.

- Enhances virtually any style of architecture
- 33 color options.
- 75-year warranty.

Spanish 13-1/4"™

Spanish 18-3/8"™

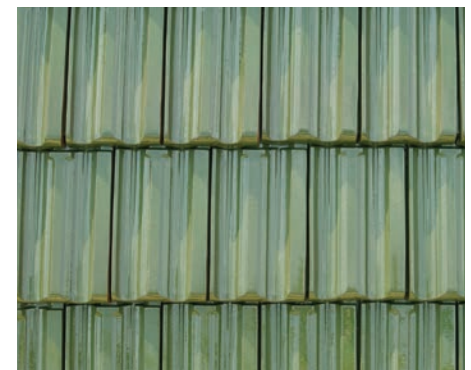

Classic 14"™

Classic Tile

A beautifully simple interlocking tile with a smooth surface and a square bottom edge.

- Smooth surface for a full range of architectural styles.
- 33 color options.
- 75-year warranty.

French Tile

A large and durable fluted interlocking tile with deep locks on all four sides, reflecting the style of French architecture.

- Unusual shadow play effect for a highly refined appearance.
- 33 color options.
- 75-year warranty.

Preserving Your Home with a High-Quality Ventilation System

A crucial step in ensuring your home's return on investment is the installation of a balanced ventilation system. With a high-quality system, the air in your home will be free of excessive moisture and mold, pollutants will be filtered from outside air, and utility bills will be lower.

CertainTeed® Ridge Vent – 12" Unfiltered

Allows exhaust ventilation along entire ridge, end-to-end. Provides higher volume of airflow per square foot of attic area than any other fixed-vent system. Changes in wind direction do not significantly affect vent performance. Wind driven rain resistant to 100 MPH.

Tamko Rapid Ridge®

Strong, compression-resistant, nylon-polyester construction means Rapid Ridge® is lightweight, cannot be dented and has no sharp edges.

CertainTeed® Rolled Ridge Vent – Unfiltered

Internal ribbing adds rigidity and makes the vent nail gun friendly for fast, easy installation. Prevents premature deterioration of shingles and other roofing materials caused by inadequate ventilation. Meets typical roof shingle warranty ventilation requirements.

Trimline Rigid Vents

Trimline Rigid Vent Plus provides superior ventilation while the exclusive StormStop® membrane guards against the elements. Trimline Rigid Roll is the most tested and certified ridge vent on the market and provides superior ventilation to your balance system.

- Durable material doesn't crush when nailed even with a nail gun.
- Adapts easily to pitches of 3/12 to 20/12.
- Lifetime manufacturer warranty.

Lomanco has been creating the best ventilation products and leading the way in residential ventilation systems since 1946. Our high product quality and functionality, combined with our well-recognized integrity has established Lomanco as the premier manufacturer of residential ventilation products.

Lomanco® Deck-Air® Intake Vent

The Lomanco Deck-Air® is a shingle over roof intake vent that installs on the roof deck. This multi-tasking vent provides continuous intake airflow and weather protection that can be installed at the roof edge or off the roof edge as required by your ventilation and construction needs.

Lomanco® Standard Power Vents

Designed for quiet operation and high volume air removal, Lomanco® Standard Power Vents include balanced fan blades for quiet operation and an American made motor.

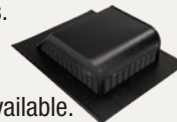

- Equipped with an adjustable thermostat that features a "push to test" button.
- All-aluminum construction.
- 5-year limited warranty.

Lomanco® Static Roof Vents

Lomanco® Static Roof Vents are exhaust vents by design. Each vent's unique construction offers maximum weather protection and offers a large nailing flange for ease of installation.

Lomanco® 750 Series Slant Back

- Embossed aluminum finishes for added strength, extended paint life, and blending appearance with shingles.
- Multiple color options
- Lifetime limited warranty.
- Extended flange option available.

Lomanco® 135 Series Pan Style

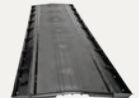

- Weather-shielding rain guard for maximum weather protection.
- All-aluminum construction with 8" x 8" attached screen.
- Limited warranty.

Lomanco® Omni Series Ridge Vents

The engineered material in Lomanco® Omni Series Ridge Vents guarantees it will last as long as any shingles you use while the construction maximizes ventilation capacity and weather protection.

- Field tested and proven effective under all weather conditions.
- Roll and Traditional styles.
- Limited lifetime warranty.

Lomanco® Whirlybird® Turbine

The all-weather Whirlybird® turbine vent offers all of the essentials for energy savings and is geared toward going green. The design ensures long life and no maintenance.

UNDERLAYMENT

Underlayments provide an extra layer of waterproofing protection and are utilized under a variety of materials such as asphaltic shingles, wood shingles/shakes, metal panel roofing, metal shingles, slate, tile, and other synthetic steep-sloped roof coverings. Underlayments can provide many functions for the roof assembly.

Drip Edge

The drip edge is critical to provide a finished look and to add waterproofing. It has an overhanging component with an outward projecting lower edge intended to control the direction of dripping water and help protect underlying building components.

- 12' mastic aluminum drip edge (available in multiple colors).
- 10' quality edge white steel 1" drip edge.

Roll Goods

The roll goods covering can be either an initial layer, an intermediate layer, a finish covering or a complete built-up membrane as in built-up roofing.

- Tamko felt line.
- Carlisle felt.
- Tarco felt.
- Rhino Roof synthetic.
- MB Technology.
- SBS underlayments.

Shingle Starters

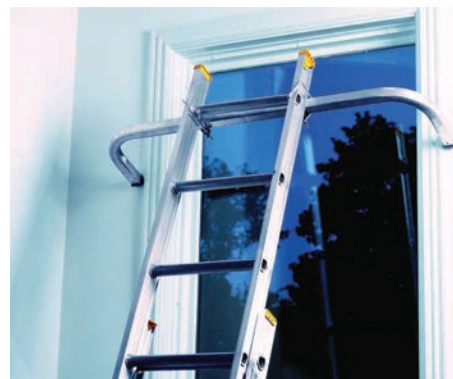

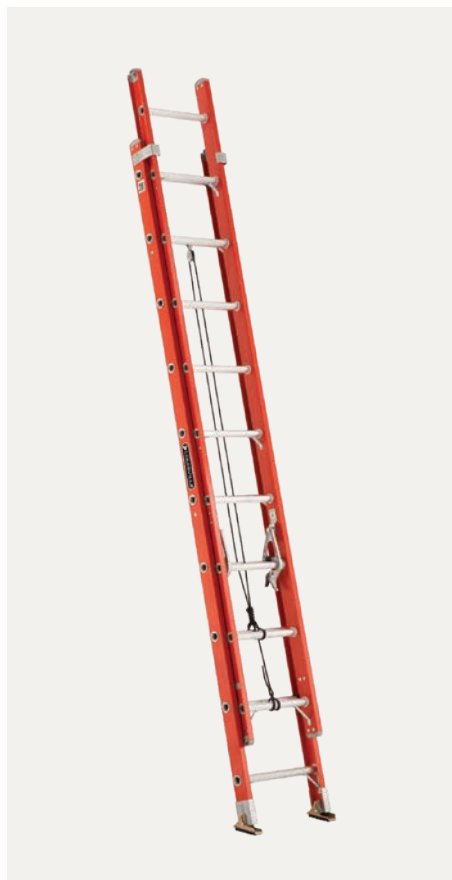

A precut universal starter course shingle designed to eliminate the wasted time and material of field cutting 3-tab or roll roofing materials into starter course shingles. Adds installation speed and reduces waste material.

- Tamko 10" shingle starters.
- CertainTeed swift starters.
- CertainTeed high performance starters.

A global industry-leading manufacturer of high quality aluminum, fiberglass, and wood step and extension ladders, stepstools, and scaffolds for consumer and professional applications worldwide.

Louisville Ladder Accessories

- Ladder Mitts (pair).
- Ladder Stand-Off.
- Ladder Safety Rail Ext Bars.

Brooms

16" Street Broom

Recommended for heavy-duty wet or dry sweeping of streets, parking lots, driveways, and other asphalt surfaces. Tough, durable, and long-wearing.

24" Tampico Broom

Versatile push broom ideal for almost any industrial use. Long-lasting quality and smoothness with great liquid holding capability.

Palmyra Broom

Ideal for heavy-duty sweeping on coarse, outdoor surfaces. Available in 30" and 36".

Corn Type Broom

- Made from Broomcorn and Sotol Fiber. Warehouse style with Splints. 3 rows of stitching and a clear handle.

Handles

- 15/16" x 48" Wood Handle with Cast Metal Thread.

- 15/16" x 48" Wood Handle with Wood Thread.

- 1-1/8" x 54" Wood Handle with Tapered End.

Mops

Giant Pin Mop

Blue denim yarn. 100% cotton. Economical and inexpensive, with good pickup. Uses 6' or 8' handles with pin adapter. Available in 40 oz. and 48 oz.

Brushes

18" Coaster Brush

Great for roof coatings, driveway dressings, and asphalt sealers.

White China Bristle Brush

Ideal for projects that require a finer finish, such as interior enamels, varnishes, and stains. Available in 3" and 4".

Knot Brush

Perfect for projects involving roughening, deburring and cleaning prior to welding, and removal of rust or paint. Available in 3" and 4".

Brush Handle Brace

Heavy duty style handle brace provides extra support to minimize handle breakage. Recommended for sizes 24", 30" and 36".

Rollers

Roller Covers

- 4-3/8" Roller Cover 3/8" NAP.
- 9-3/8" Roller Cover 3/8" NAP.
- 18-3/8" Roller Cover 3/4" NAP.

Roller Frames

- 4" Heavy-Duty Roller Frame.
- 9" Heavy-Duty Roller Frame.
- 18" Heavy-Duty Roller Frame.

Roller Mops & Roller Mop Frames

- Roller mops are used for all types of coatings. Uses roller mop frames.
- Roller mop frames fit any 6' or 8' aluminum or wood pin type handle.

Squeegees

Squeegees

- Straight squeegee with heavy-duty steel frame with 1/4" rubber blade.
- Neoprene applicator squeegee.

SHOWROOM ITEMS

Utility Knives and Blades

Straight Blade

For use with utility knife. Sharper, stronger, and longer lasting than other blades.

Hook Blade

For use with most utility knives. Blade shape prevents damage to material being cut.

Utility Knife Pouch

Cowhide pouch with riveted bottom.
1-1/2" x 5-1/2" sheath
Two 2-1/2" belt slots

Double Knife Holster

Sewn and riveted holster. Fits onto belt.

Utility Knife Fixed

Blade locks in place. Handle is designed to provide a slip resistant grip. Blade length: 2-1/2".

Utility Knife Retractable

3-position, retractable blade. Blade storage in handle.

Marking Crayons

5" x 9/16" round. A long lasting all purpose wax crayon for use on wood, cardboard, and paper. The ideal inexpensive crayon for all around industrial use. Leaves a permanent mark. Available in yellow, white, and red. 12 per box.

Tool Pouches, Belts & Knee Pads

5 Pocket Nail & Tool Bag

1 large pocket, 1 medium pocket, 1 small pocket, 2 tapered screwdriver holders.

Utility Belt

Web style, army pistol style construction. 2" belt adjusts to fit sizes 29" to 46".

Shingle Knee Pad

Protects skin from the abrasive texture of roofing materials. 2" x 21" x 31-1/2".

UltraFlex Knee Pads

Hard, plastic outer shell provides the ultimate in protection and ease of movement.

Rubber Knee Pads

Contoured to the shape of the knee, these rubber knee pads provide both comfort and flexibility.

Leather Knee Pads

Steel buckle strap, leather padding with 1" felt for comfort.

Gloves

Black Dot Gloves

Black dots offer superior gripping ability. 12 pack or pair.

Leather Gloves

Comfortable and durable glove for moderate to heavy jobs. 12 pack or pair.

Brown Jersey Gloves

Light duty glove. 12 pack or pair.

Blue #300 Atlas Gloves

Excellent gripping power and waterproofing for more heavy duty jobs. 12 pack or pair.

Power Grab® Thermo Orange Gloves

Cold weather glove with increased thumb protection that does not compromise gripping ability. 12 pack or pair.

G-Tek MaxiFlex LG Gloves

Features layer of micro-foam over fingers and palms. Heavy-duty glove for protection and dexterity. 12 pack or pair.

Rubber Gloves

Rubber coated glove for light to moderate protection. Available in 12 pack, pair, or right hand only.

Tarps

Blue Poly Tarps

Multi-purpose tarp with heat-sealed, reinforced sides.

Sizes available: 10' x 12', 12' x 14', 12' x 16', 16' x 20', 20' x 25', 20' x 30', 20' x 40', 30' x 40', and 40' x 60'.

Gas Cans & Funnel

Safety Gas Can

Available in 2 or 5 gallon made of galvanized steel.

Safety Gas Funnel

Improves safety by limiting spillage.

Straps and Cords

Rubber Tie-Down Strap

Heavy-duty bungee cord. Available in 15", 21", 31", and 41".

Ratchet & Strap

2" width strap. Assembly break strength. Available in 15", 21", 31", and 41".

CFCI Plug Extension

Portable and easy to install, CFCI plug extensions are necessary for safe electricity on the job.

3-Way Power Block

12 gauge power block with 3 wire prong.

Outdoor Extension Cord

Heavy-duty extension cord with 12/3 lighted end. Sizes available: 50' or 100'.

COPPER NAILS & SLATE TOOLS

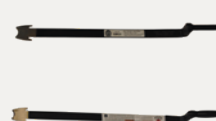

Copper Nails

Smooth shank nails produced from top quality copper. Sizes available: 1", 1-1/4", 1-1/2", 1-3/4", 2", 2-1/2", 3".

Slate Cutter

Powerful slate cutters designed to get your job done quickly and efficiently. Available in regular and hand held models.

Slate Rippers

Heavy-duty and standard available.

Slate Hammer

Slate hammer with center claw for nail pulling. Available in right hand and left hand styles.

Slaters Stake

Trims slate quickly and efficiently. For use in conjunction with slate hammer.

Copper Slate Hooks

High-quality copper slate hooks for replacing existing slate.

Copper Loop - The Loop Snow Guard

Made from heavy-gauge, solid copper wire, these economy guards are built for roof deck applications on newly installed roofs, wood shakes, or asphalt shingles.

Galvanized Snow Guards & Stainless Steel Snow Guards

Premium-quality snow guards for installation on new or existing roofs. Available in galvanized or stainless steel.

Mullane Clear Polycarbonate Snow Guards

Constructed with UV resistant polycarbonate. For use on all non-copper metal roof systems.

Slaters Roof Bracket

Durable roof bracket adjusts and locks in six positions. Constructed with galvanized steel for extra strength and safety. Accommodates roof pitches from 3/12 to 10/12.

Berger Surebond EverSeal

Adhesive sealant creates watertight bond when applied to the snow guard's base and perimeter. Recommended for all metal roof applications.

SHOWROOM ITEMS

Hand Tools

Tape Measures

Heavy-duty tape measure features a power return, positive blade lock, and belt clip. Features 7 feet of blade stand out. Sizes available: 25' and 30'.

Measuring Wheel Roadrunner

Ideal for quick estimates, the Roadrunner accurately measures any type of surface. Measures up to 1,000 ft. Wheel diameter: 12" .

Insulation Knife

A clean, even cut is achieved with just one stroke with this uniquely designed professional roofing knife. Made of stainless steel and aluminum alloy.

Roof Pitch Angle Meter

Simple to use roof pitch angle meter calculates roof, angle, slope, and pitch. One-hand operation rotary with conversion charts and reference graphics.

10" Shears

Excellent cutting ability on the toughest of fabrics

Straight Aviation Snip

Cuts straight, left, and right through 18-gauge carbon steel. Chrome molybdenum blades.

Aviation Snip

Aviation Snip cuts up to 1.2 mm cold rolled steel and is designed to cut through tight curves. Molybdenum steel construction. Right and left cut available.

ALSNIP- 13" Aluminum Snip

Durable, 13" aluminum snip with oversized handle for comfort and control. 3.5" cutting length.

Newborn Parallel Caulking Gun

For 1/10 gallon cartridges. Sturdy 100% steel construction, thrust ratio of 10:1. Intended use for medium viscosity materials.

Revolver #250 Caulking Gun

For 1/10 gallon cartridges. Heat treated materials designed to be extra durable. 18:1 thrust ratio, with patented spout cutter and precision sintered friction plate.

AJC Caulking Gun

Recommended for high viscosity materials. Gun battery pack and charger unit sold separately.

15" Super Bar

Constructed for effective prying, molding, scraping, and nail pulling. Made of drop forged steel for heavy usage.

18" Pry Bar

Lightweight I-Beam construction bar with beveled nail slot. Designed for strength and durability.

Core Sample Cutter

Razor sharp steel tip to designed to cut and store samples from a variety of materials.

16 oz. Hammer #3030

Claw designed for ripping nails. Balanced, sturdy handle for comfort and control.

Brick Trowel

Taper ground for increased flexibility and comfort. Measures 5-1/2" x 2-3/4"

Gauging Trowel

Blade constructed from high-grade steel for maximum strength and durability. Measures 7" x 3-1/2".

Margin Trowel

Made from a single piece of forged steel, this margin trowel is tempered and ground for perfect balance. Measures 5" x 2".

AJC Magnetic Retrieving Tool

Perfect for on-site construction cleanup, this magnetic retrieving device picks up a variety of metals from indoor and outdoor surfaces.

10" and 30" Magnetic Sweeper

Quickly picks up metal material such as nails and screws over indoor and outdoor surfaces.

Tear Off Tools

Axes

3-1/2 lb. forged steel head for perfect chopping. Available in single and double bit.

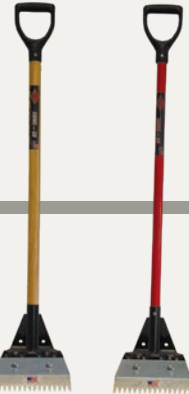

AJC Shingle Hatchet

Features high grade hickory handle for excellent shock absorption. 19 oz. head weight.

AJC Spade Shingle Tear-Off

Inserts underneath shingle or slate for quick removal. Wood D-handle and Figerglass D-handle available.

Skid Plate Replacement

High-quality replacements for any style skid plate. Made from alloy steel.

9" Serrated Replacement Blade

Made from tempered chrome and heat treated steel. Fits all AJC shovels.

Fork Tooth Replacement

Made from alloy steel.

Gravel Scoop No. 2

Designed for hard to reach areas, allowing loose material to be placed with precision.

Spade Scratcher

Long-handle spade scratcher. Wood handle.

Tool Roof Ripper

Spade Tear-Offs

Items available: Serrated D-handle with fulcrum and smooth wood long handle with fulcrum.

Foxy Spade TearOff

Available in T-handle serrated and smooth. Steel head, mig welded for superior strength and durability.

Wheeled Tear Off Bar

Features a steel frame and blade. Designed to quickly and effectively remove roofing materials.

Red Ripper

Patented Y-shaped ripping teeth rip forward and backward, making it quicker and easier than ever to remove shingles.

The Duck Foot

54" shingle tear off tool.

Spud Bar Tear Off Tools

3" and 7" Spud Bars feature knob handle.

3" and 7" Spud Bar Replacement Blade.

SAFETY ACCESSORIES

Working at heights requires dependable gear to keep your team safe. Roofers Mart carries a full line of code-compliant safety products for head, face, and eye protection, and to prevent injuries from falls. From hard hats to goggles to safety harnesses and vests, this gear provides an essential first line of defense.

Dust Masks

Disposable, non-toxic dust and filter mask. 50 per box.

Orange Safety Vests

One size fits all.

Safety First Aid Kit

A necessity for construction job sites. Exceeds ANSI Standard 2308.1-2009.

Pitch Hood

Available in blue and nude. Breathable and comfortable to wear.

Hard Hats

Available in assorted colors.

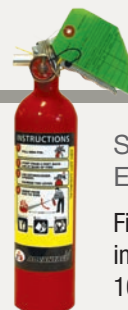

Pitch Gel Tube

Formulated to soothe pitch burn and protect the skin from pitch fumes.

Safety Tapes

3" x 300' Caution Tape and Danger tape. Do Not Enter Tape also available.

Safety Fire Extinguishers

Fire extinguisher in 1-1/2 lb. and 10 lb. sizes.

Face Shield and Hard Hat Bracket

The face shield is made of hard material that protects eyes and skin from harsh chemicals. The hard hat bracket is sold separately and fits all construction hard hats.

Warning Line Flags & Kits

Warning line flag in 60' and 100' sizes.

Warning line kit stanchions with 100' flag are portable and collapsible.

Safety Glasses

Available in polarized, heavy-duty, and regular styles.

Fall Protection

Includes safelight harness, 6' shock lanyard, 50' lifeline with rope grab, and heavy-duty roof anchors for fall protection.

COUGARPAWS™

FOOTWEAR

THE TOOL YOU WEAR

for protection, performance...and peace of mind.

Perfect for roofers, adjustors, house inspectors, gutter installers, window cleaners, chimney sweeps, and anyone else who works on hazardous inclines or roof surfaces. Cougar Paws products offer Traction Grip technology that enables workers to double their production while increasing their safety.

Performer Boot

This 6" boot has a soft flexible leather upper with a cushioned interior lining that results in a snug comfortable feel. The redesigned outsole provides a more balanced fit, reducing foot fatigue.

- Replaceable Peak Line Pads.
- Does not run ½ size large. Please order your normal shoe size.

The Cougar Paws boot soles are actually made of industrial Velcro. Called the "hook," it allows a replaceable "Traction-Grip" pad to be attached to the sole. When the pad wears down, it can be peeled off and replaced by a new one.

Estimator Boot

Don't be fooled by this boots stylish appearance. It uses the same traction-grip technology found in all Cougar Paws boots. The leather and nylon upper reduces the weight found in traditional boots, making it perfect for estimating and light-duty jobs.

- Replaceable Traction-Grip pad technology.
- Does not run ½ size large. Please order your normal shoe size.

COUGAR PAWS ACCESSORIES

Multi-Purpose Pads

Multi-Purpose Traction-Grip Replacement Pad provides exceptional stability and mobility on roofs of varying surfaces and inclines.

- Ideal for plywood, wood shakes, felt, slate, shingles and more.
- Velcro attachment adheres to all Cougar Paws boots.

See Size Notes Below

Spiked Pads

Ideal for roof tear-offs, the Metal Spike Pad provides maximum holding power and durability. Velcro attachment adheres to all Cougar Paws roofing boots.

- Not recommended for new roof surfaces.
- Boots sold separately.

See Size Notes Below

Cougar Paws Tote Bag

Protect your investment with this handsome boot bag. Comes with handy side pockets for replacement pads or other accessories.

- Water-resistant canvas bag.
- Includes heavyweight strap.

Pads in Picture NOT INCLUDED

NOTE REGARDING PAD SIZES: Pads come only in whole sizes rounded up. So a size 10 pad will fit a 9-1/2 shoe, and so on.

ETERNABOND®

Stop leaks and water proof any surface in minutes with adhesive tape from EternaBond®. Easy to install, and featuring exclusive Microsealant technology, EternaBond® adhesive tape bonds with virtually all surfaces, providing permanent repairs on all non-pressurized leaks.

EternaBond® RoofSeal

Seal any rip, tear, or open seam in any surface with a permanent water-tight seal. Perfect for re-seaming all roofs, regardless of the material. Available in Black or White.

- 4" x 50', 6" x 50', 12" x 50'.

EternaClean Spray Cleaner

Designed to "open" single-ply roof membranes and metals, it allows the surface to release contaminants like oxidation, grime, oil and grease, tree sap, etc.

- 14 oz. can.

EternaPrime®

Used to prepare larger areas that are especially dirty, rough, oxidized, or corroded.

- Quart can.

WebSeal®

Easy to work with and extremely flexible, WebSeal® forms around almost anything from a seam or tear to a screw head.

- 30 mil. thick, 4" x 50', 6" x 50', 12" x 50'.

EternaBond® Double Stick Tape

DoubleStick is sticky on both sides. It is perfect for use as a gasket when installing windows and vents on RVs, mobile homes, steel buildings, etc.

- 60 mil. thick, 2" x 50'.

PORTALSPLUS

Portals Plus Roof Drains

Proper roof drainage is essential to prevent water from backing up onto the roof membrane where significant damage can occur. Factors affecting drainage include deck slope, flashing, and the size and placement of drains.

Features:

- **Dome Strainer** Portals Plus Dome Strainer is epoxy coated diecast aluminum for longevity. The Dome Strainer bolts securely to clamping collar. Dome Strainer also available in ultraviolet-stabilized polyethylene.

A leading manufacturer of roof drains and scuppers, Portals Plus was a gold medal winner for component and accessory product design at the 10th annual ACHR Dealer Design Awards.

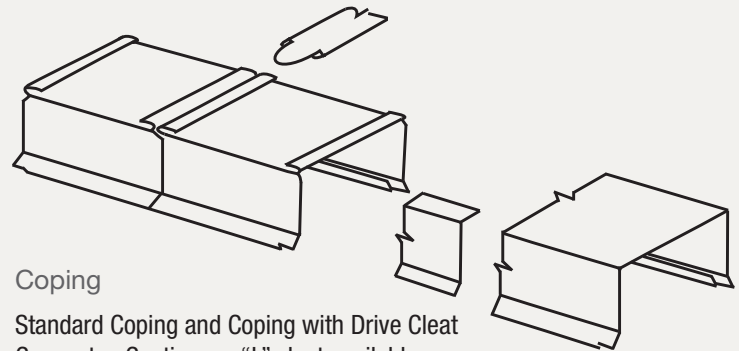

- **Clamping Collar/Gravel Guard** Portals Plus diecast aluminum epoxy coated Gravel Guard and Clamping Collar is grooved for positive drainage and insures a maximum hold on roofing materials.
- **Drain Bowl** Portals Plus Drain Bowls are available in 3", 4", and 6" sizes in cast iron; cast aluminum; ultraviolet-stabilized, injection-molded, white PVC; and injection molded, black ABS.
- **Underdeck Clamp** Portals Plus epoxy coated cast aluminum underdeck clamp holds the drain bowl securely to the deck.

- **Extension** Portals Plus Extension is a 6" length of schedule 40 pipe that extends the drain bowl down below the deck, to accommodate the expansion coupling (for PVC and ABS Plus Packs only).
- **Expansion Coupling** Portals Plus flexible Expansion Coupling allows for expansion and contraction that enables the installer to connect the drain to various types of piping. Two stainless steel clamps included.

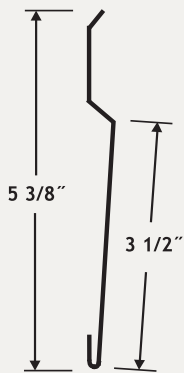

FLASHMASTER/GUTTERTECH, INC. IDEAS CONVERTED TO METAL

FlashMaster/Gutter Tech, Inc., manufactures a quality line of metal roof flashings for commercial rainware products and residential roofing applications. All of our products are designed to be user-friendly. While offering a wide selection of standard flashings and materials, we also custom fabricate to meet your special needs.

Coping

Standard Coping and Coping with Drive Cleat Connector. Continuous "L" cleat available as a hidden front fastener. Pre-notched ends for easy installation.

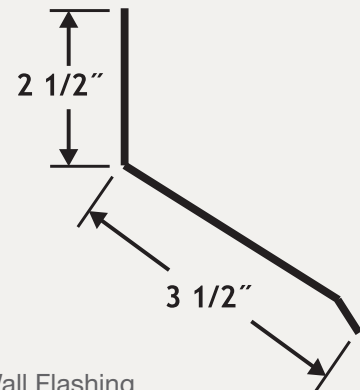

Surface Mounted Counterflashing

Ready to install in 8 ft. lengths. Secures tightly against wall, and includes a built-in caulk tray, and built-in caulk for sealing. Extension Flashing also available.

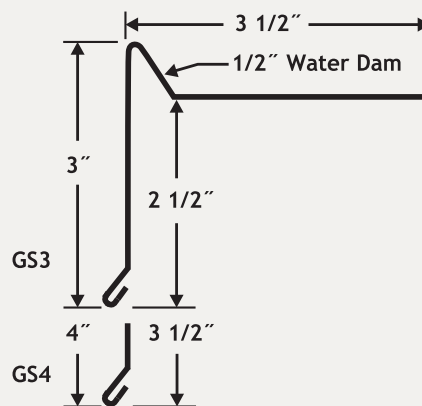

Valley Flashing

16 oz. copper, brown, black, and mill finish aluminum available. Other colors also available.

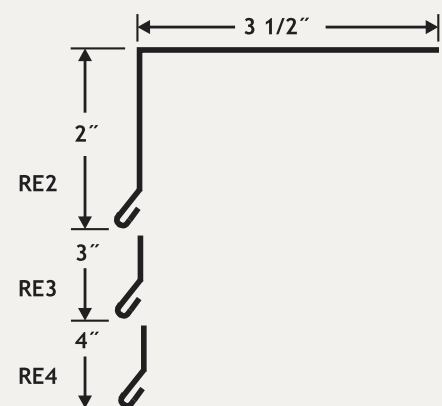

Wall Flashing

16 oz. copper, brown, white, black, mill finish. Other colors also available.

Gravel Stop

Both Gravel Stop and Roof Edging include pre-notched ends for installation. Available in copper, galvanized, mill finish aluminum, paint grip, pre-painted aluminum, and Kynar 500® aluminum and steel.

Roof Edging

VELUX®

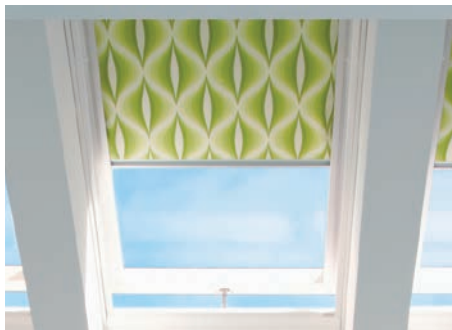

Skylights

Velux is the market leader in the manufacturing of skylights and roof windows. Available to builders, architects, merchants and consumers throughout the United States, the skylights and roof windows are complemented by a complete range of blinds, electronic accessories, solar panels and shades.

Neat® Glass

Velux skylights feature Neat® glass which delivers an exceptionally smooth surface that distributes water evenly, for quick evaporation, reduced spotting, and superior viewing. Reduce unwanted outside noise by up to 25%, and meet or exceed all building code requirements for safety. Velux skylights featuring Neat® glass are clean, quiet, and safe.

Blinds

Blinds are available across all skylight families of Velux tubular lighting. Choose from traditional Venetian blinds to light filtering, blackout, or solar blinds, which are powered by the sun and still qualify through 2016 for the federal solar tax credit program.

Velux Skylights

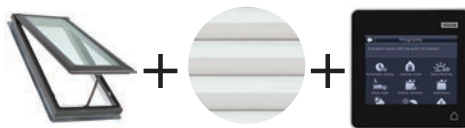

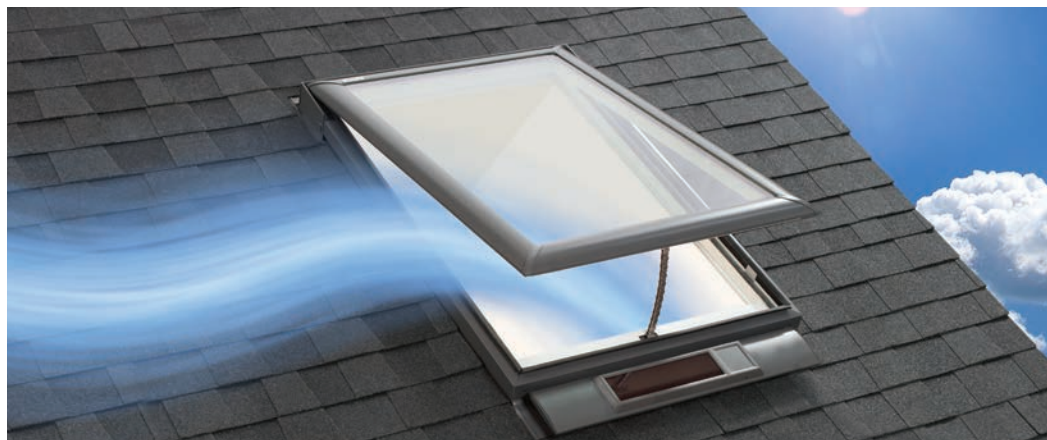

Fixed Curb Mount: 2222, 2234, 2246, 3030, 3046, 4646.
Fixed Deck Mount: C01, C06, S06.
Sun Tunnel: 10", 14", 22".
ECL and EDL Flashing Kits.
Acrylic: special order.

The VELUX Dynamic Dome commercial skylight brings in at least 20% *more light* than any other dome skylight on the market. Dynamic Dome skylights are available with OSHA-compliant LuxGuard polycarbonate domes, and are designed in stock sizes.

"Fresh Air" Skylight

The new Solar Powered "Fresh Air" Skylight is remote controlled for easy operation and features extended long-term warranties on installation, leaks, product controls, and glass. A solar panel captures all available sunlight to charge a fully-concealed battery. No wiring is needed, and an integrated rain sensor automatically closes the skylight during inclement weather. Improve the interior health of your home with the "Fresh Air" skylight.

Order factory-installed solar blinds (stock colors only) on any fixed or manual "Fresh Air" skylight installation, and receive the Programmable Remote Control free, plus qualify for a 30% Federal Tax Credit.

Since 1935

Wasco offers a full line of exceptionally crafted vaulted commercial skylights featuring a wide range of glazing, finishes, and designs. Styles include Wasco's continuous vaulted systems, low- and standard-rise barrel vaults, half-round, and quarter-round vaults.

Wasco Skylights

Available in acrylic, polycarbonate or impact modified acrylic glazes in clear, tinted, and thermal translucent options.

Sizes: 2' x 2', 2' x 4', 3' x 3', and 4' x 4'.

Ballast Pavers

Westtile's ballast pavers offer a lightweight, interlocking paver system designed to secure roofing membranes. Primarily used to build maintenance walkways or to fully cover roofs for maximum protection – especially from wind and UV damage.

- Easy to install.
- Freeze/thaw resistant.
- Fire proof.

Plaza Pavers

Westtile's high-density concrete pavers are ideal for constructing gathering spaces on rooftops and terraces to maximize outdoor living spaces. Designed to go over sloping or uneven surfaces.

Babcock-Davis, a trusted name in the commercial construction industry.

Babcock-Davis Roof Hatches

Babcock-Davis' high quality roof hatches provide safe and easy access to commercial building roofs.

- Galvanized or aluminum.
- Ladder access design.

Safety Posts

Telescoping safety posts provide additional entry and exit safety.

- High strength square tubing.
- Ladder mounting.
- Available in steel, aluminum, or stainless steel.

Firestone

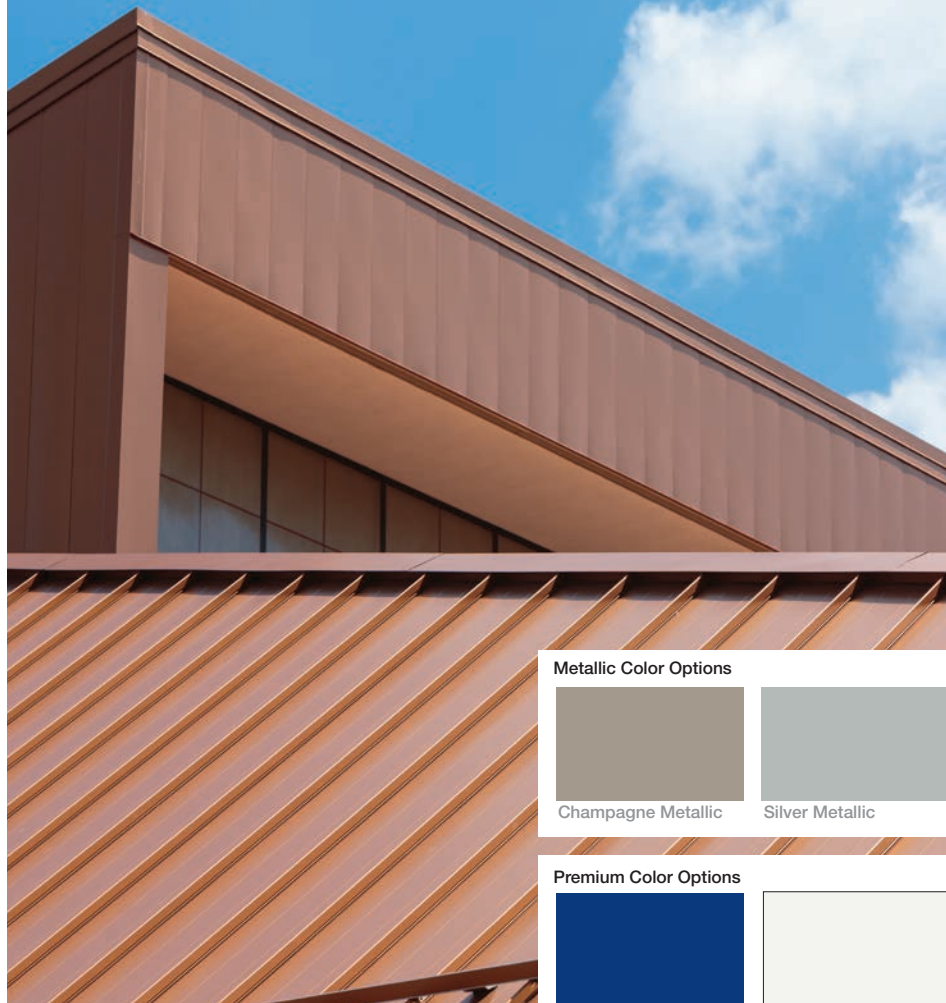

BUILDING PRODUCTS

Firestone Building Products systems are recognized the world over for their outstanding construction and innovative design. UNA-CLAD offers a variety of sustainable, reliable, and environmentally-friendly roofing system options, allowing for maximum design freedom with a wide range of materials, widths, and finishes.

Firestone UNA-CLAD

The UNA-CLAD line from Firestone features the highest quality metal and exceptional design. Available in aluminum plate, honeycomb, aluminum composite, and insulated metal.

- 24 gauge steel.
- .032 Aluminum.
- 28 Premium Color Options.
- 3 Metallic Color Options.

Firestone BUILDING PRODUCTS

We take the entire building envelope into consideration, approaching each job with a sharp focus on the results you need to achieve. We provide a complete solution—exceptionally performing building materials backed by a brand you can trust, combined with the services, support, warranty, and expertise you need. All from people who constantly look at the big picture with you, and strive to develop eco-friendly products and processes that pave the way for a brighter tomorrow.

RubberGard™ EPDM Roofing Systems

Proven performance, durability, and flexibility over a wide range of building types. Installation options include fully adhered, ballasted or mechanically attached. System's thermal performance can reduce energy consumption.

RubberGard™ EPDM SA with Secure Bond™ Technology

Self-adhering membrane with factory applied, pressure sensitive adhesive. Installs up to five times faster than standard fully adhered applications. Ability to install down to 20°F. Significantly outperforms liquid LVOC adhesives. Zero Volatile Organic Compounds (VOCs).

UltraPly TPO Roofing Systems

Flexible, hot-air welded membrane for a wide range of building types. Reflective white, tan, or gray panels can help reduce cooling requirements. Available widths: 8', 10' and 12'. Available thicknesses: .045", .060" and .080".

UltraPly™ TPO SA with Secure Bond™ Technology

Self-adhering membrane with factory applied, pressure sensitive adhesive. Installs up to five times faster than standard fully adhered applications. Ability to install down to 20°F. Significantly outperforms liquid LVOC adhesives. Zero Volatile Organic Compounds (VOCs).

BUR Systems

Ply IV (4) and Ply VI (6) asphalt impregnated, glass fiber mat reinforced roofing felts provide durability and ease of application to construct Firestone Built-Up Roofing (BUR) Systems. Can be installed in multiple layers with a flood coat and aggregate, or in combination with modified bitumen.

SBS Roofing Systems

Modified Bitumen Roofing Systems incorporate synthetic rubber-based technology. Exceptional flexibility, even in extremely low temperatures. SBS membranes may be installed in hot asphalt, cold adhesive, or heat welded.

APP Roofing Systems

Modified Bitumen Roofing Systems are available in a variety of thicknesses in smooth and granule surfaces. Reinforced with non-woven polyester mat. New and reroof applications. Membranes may be installed by heat welding or with cold-applied adhesives.

Versico is proud to provide an industry-leading selection of single-ply roofing membranes to suit virtually any project or specification, including VersiGard EPDM, VersiWeld TPO, VersiFleece TPO and PVC, VersiFlex PVC, and VersiFlex-E KEE HP PVC. Versico also offers a full line of labor-saving flashing accessories, insulation and coverboards, Roof Gardens, edge metal, and skylights.

VersiWeld® TPO

VersiWeld TPO membranes are ENERGY STAR® qualified and CRRC rated. Enhanced with Versico's high-performance OctaGuard XT™ Weathering Package, VersiWeld membranes offer extreme weatherability and long-term performance.

VersiFlex™ PVC

ENERGY STAR® qualified and Title 24 compliant, VersiFlex PVC membranes will perform to the highest standards with a durability backed by industry-leading warranty coverage. Versico offers the industry's broadest range of PVC products, ensuring you can find the ideal solution for your rooftop.

VersiFleece® PVC

VersiFleece PVC is manufactured using Versico's VersiFlex™ PVC membrane laminated to a fleece backing.

VersiFleece® TPO

Ideal for re-roofing or new construction, VersiFleece TPO incorporates all the benefits of Versico's VersiWeld® reinforced TPO membrane with the additional benefits of a non-woven polyester fleece backing offering unmatched durability, puncture resistance and reflectivity.

VersiFlex-E KEE HP

Versico's KEE HP PVC membranes contain a solid KEE HP (high-performance) plasticizer with a higher molecular weight than standard KEE. Featuring improved aesthetics, enhanced thermal performance, a wider window of weldability and superior cold temperature flexibility.

VersiGard® EPDM

VersiGard EPDM membranes have been around for nearly 50 years and are some of the most durable, high-performance membranes available today. Because of the membrane's proven long-term strength and quality, Versico offers up to 30-year system warranties.

At GenFlex, we live to tackle – and solve – the toughest challenges in roofing. The result is a full line of proven, durable roofing systems and components that provide you with quality, ease of installation and complete warranty coverage. It's that simple. Listening and responding to the needs of our customers has kept GenFlex at the forefront of new roofing products and technologies for over 30 years. And we're just getting started.

EPDM Roofing Systems

GenFlex EPDM single-ply membrane stands up to tears, impacts, punctures, and normal roof traffic. Offers excellent resistance to ozone and ultraviolet light exposure. Meets all the requirements of the EPDM ASTM Standard D4637.

FlexWhite™ EPDM

White-on-black EPDM membrane combines the benefits of a highly reflective white-surfaced membrane with the proven application techniques of a flexible EPDM roofing system.

GenFlex EZ TPO

The flexibility and weathering resistance of rubber, plus the versatility of a thermoplastic. Seams may be heat-welded or sealed with seam tape. Outstanding heat-reflectivity and energy efficiency for high performance that's strikingly affordable.

EZ TPO Peel & Stick™

Extreme performance, even down to 20°F, with self-adhesive technology that blows away competitive membranes. Enjoy the convenience of no chemicals, buckets, mixing, or waiting.

LEISTER®

With our global market presence of 130 Leister sales and service centers and sales partners in 100 countries, we can guarantee that all products and services are available locally at all times. Leister technologies and competencies – as well as the local expertise of our sales partners – are at the disposal of our customers in all countries every day.

All sales and service centers operate according to Leister standards and are audited to Leister guidelines. We regularly carry out training with our sales partners' employees so that we can offer our customers the best possible advice and service through our up-to-date product knowledge and understanding of applications.

VARIMAT V2

Weld polymer roofing membranes more rapidly! Guide bar for ergonomic handling. Maintenance free blower, plus constant drive with regulated electronics. User-friendly display with “e-Drive” (press and turn control) to recall preset and saved welding settings.

BITUMAT B2

Single step, flameless welding of modified bitumen sheeting (SBS, APP). Requires only one user to efficiently weld seams. Safer than open flame welding, with significantly better weld strength.

TRIAC AT

High-quality, hot-air hand tool for welding and shrinking plastics. Suitable for on-site use and equipped for all situations. Effective outside and indoors – all during continuous operation.

TRIAC ST

100% Swiss made quality. Two-component handle grip, optimally balanced for ergonomic working. Quick clean air filters, automatic carbon stop (collector protection), and heating element protection. Compatible with more than 80 nozzles.

UNIROOF AT

Automatic roof welder for thermoplastic membranes on roofs with slopes up to 30°. Movable transportation axle allows welding as close as 100 mm (4 inches) from the edge. Outperforms comparable machinery by up to 66%.

UNIROOF ST

Automatic roof welder for thermoplastic membranes on roofs with slopes up to 30°. Movable transportation axle allows welding as close as 100 mm (4 inches) from the edge. Outperforms comparable machinery by up to 38%.

Roofers Mart, Inc.: An Authorized Leister Technologies Dealer

Roofers Mart, Inc., is an authorized partner of Leister Technologies. Roofers Mart supports the sales and service of Leister's line of plastic welding equipment for the roofing industry—including automatic welding machines, hand tools, spare parts, and accessories—within a territory that includes the State of Missouri and Southern Illinois.

Cleasby Manufacturing Inc., is a full line manufacturing facility, distributor of equipment and tools, and service center for the commercial and residential roofing industry. Whether it is single ply, cold process, built up roofing, or road maintenance equipment requirements, Cleasby Manufacturing offers a solution for single source equipment needs.

Hoisting Equipment

Hoisting Rope

Manila Rope 600' coil manila rope.

Available in 1/2" (wt. 45 lbs).
and 3/4" full coil (wt. 102 lbs).

Rope & Hook Assembly

3/4" x 100' manila rope with safety hook.

Large Rope Hook with Spring Latch.

Small Handline Hook with Safety Latch.

Ladder Derricks

Available in
short handle and
long handle models.

Wt. 10 lbs.

Convenient for transporting lightweight supplies to the roof. Both models use 3/4" rope. Rope sold separately.

Hoisting Wheel

12" hoisting wheel accommodates 3/4" rope. Made of hard cast aluminum with solid steel frame.

Wt. 9 lbs.

Steel Hand Beam

Lifting capacity is 300 Lbs.

Two-piece hand beam is an inexpensive and efficient means for transporting materials to the roof. Light weight and easy to assemble. Load the large counter weight basket with cement blocks to support the two-piece hand beam and offset the weight of the hoisted materials.

Hoisting wheel, rope and bucket sold separately. Cement blocks available at most building material stores.

Material Handling Equipment

Wheelbarrows

Steel frame wheelbarrow.
One wheel and two wheel
models available.

One Wheel Wheelbarrow* (pictured)
Heavy Duty All-Steel Wheelbarrow with a
400 x 8 pneumatic tire with a 5/8 in. bearing.
Weight 60 lbs. (Flatbuster tire is optional.)

Two Wheel Wheelbarrow

Features two 400 X 8 pneumatic tires with
1 in. bearings for maximum stability.
Weight: 75 lbs. (Flatbuster tire are optional.)

Pack Horse with Optional Utility Wheels

(pictured with utility wheels)
Weight: 180 lbs.

Maximize your material handling needs.
For use on or off the roof to move rolls of felt,
insulation, pallets, etc.

Maximum weight capacity is 600 lbs.
and large 18 X 8.50 tires are standard.

Available options:

- Pack Horse only. Weight: 120 lbs.

Four Wheel 30x60 Trailer

Capacity is 2000 lbs.
(pictured with
standard 400 x 8 tires)
Weight 150 lbs.

Heavy-duty four-wheel trailer with 30" X 60"
bed (larger custom beds available). Designed
to be used individually or hooked together.
Mechanical brake makes contact w/front
tires when tongue is dropped.

Available options:

- 18 X 8.50 large tires. Weight: 190 lbs.
- 400 X 8 Flatbuster tires. Weight: 248 lbs.

Pivot Style Self Dumping* Hopper

Available in five sizes:
1 yd., 1-1/2 yd., 2 yd., 3 yd., 4 yd.

- All heavy duty steel construction.
- Grease fittings on pivot axles.
- Pivot points reinforced with steel plates for added strength.
- Heavy duty base with fork channels and skids.
- Dropped front for clean dumping.

Dumping Tray*

(pictured with
Four Wheel Trailer)
Trailer sold separately.

An extra large (48 x 60 in.) tray designed
to fit our popular Four Wheel Trailer.
Engineered for fast, easy on/off attachment
and fabricated from heavy gauge steel.

Available for four wheel trailer. Weight: 165 lbs.

Trash Chutes

Chutes are designed to
be used with a one or two
piece trash chute hopper.

Made of heavy duty 30" diameter X 4' length
tapered plastic. Hardware is bolted instead
of pop riveted, a much stronger and more
durable alternative. Set up in minutes.

- One piece adapter plate. Weight: 60 lbs.
- Two piece hopper with sling. Weight: 160 lbs.

PLEASE NOTE:

Not all products are available in all locations. We will
work to suggest alternatives if we do not stock the exact
products requested at your location.

* Available by special order only.

On Deck Roofing Equipment

Power Max Roof Saw*

Other blade and engine options are available.
Weight: 215 lbs.

Best designed roof saw in the industry! Known for its "Quick Belt Change", belts are changed in minutes by simply loosening T-bolts and letting the hinged belt guard swing down. Equipped with a straight carbide blade and a Briggs & Stratton 10 H.P. engine.

Roof Saw Blades

- Straight carbide blade Posa Trac I carbide blade.
- 1 straight blade & 1 offset blade Posa Trac II carbide blade.
- Posa Trac II 12" replaceable tips.

Power Max Roof Saw II*

Dimensions:
35"W x 43"H x 72"L
Weight: 585 lbs.

Offers several of the same desirable features as our original Power Max roof saw including a remote clean air intake, off center blade guards, quick change belt and blade design. Twin 12" carbide blades with floating blade guards and a 25" cutting width.

- Cut debris fits down trash chutes.

Perimeter Warning Line System

Warning line system complete wt. 205 lbs.

Alert workers of the roof's edge with our popular warning line system. Includes four stanchions with four detachable support base sections and 100' of reinforced pennants.

The Hurricane

13 HP Honda with Oil Alert and Electric Start
Weight: 620 lbs.

The Hurricane, complete with parallel wheel drive system, has been designed and engineered with all of the quality, performance and reliability needed in a heavy duty tearoff machine.

- 8 x 9.50 Power Master chevron tread, foam-filled rubber tire.
- Hydraulic Forward/Reverse with variable speed.
- 20" Standard Wide angle blade.

Wheeled Tear-off Bar

Weight: 42 lbs.

Heavy duty all steel wheeled tear-off bar. Includes 10" steel flat blade. 10" shingle blade optional.

Hoses, Pipes, Buckets and Kettle Accessories

Service Bucket

w/ side handles
12" x 14" service bucket.
Capacity 6 gal.

Handheld Thermometer

Features
12" stem thermometer

Kettle Skimmer

Made for cleaning unwanted excess residue from kettles. This hot tar kettle skimmer is durable, functional, and economical.

Rubber Flex Hose

3' metal flex hose with fitting on one end

Insulated Flex Hose

Sizes available: 3' and 5'. Fitting on one end.

Hammer on Union

45° or 90° set-up

Hot Pipes

Sizes available: 5', 10', 15' and 20'

120° Hot Pipe Elbow
90 Degree Pipe Bend w/ Hammer on Union

Tri-Lug Union

Hammer-On Union

Stockham Union

Mop Carts

13 gal. Round Bucket

Shown with removable round bucket and 10 x 3 tires.
Weight: 23 lbs.

Available options include: Fenders, steel wheels, pneumatic tires, 10 X 1.75 or 10 X 3 tires. All Speed King mop carts are constructed of heavy gauge steel. A rolled rim reduces mop drag over top edge for longer lasting mops. Carts include a rolled mop cart rest, convenient mop handle holder and standard 6" wheels.

18 gal. Square Bucket*
Shown with 10 x 1.75 tires
Weight: 49 lbs.

20 gal. Round Bucket*
Shown with 10 x 1.75 tires
Weight: 40 lbs.

30 gal. Square Bucket*
Shown with 10 x 1.75 tires
Weight: 66 lbs.

Rooftop Equipment Inc.

With a 29-year history of increasing productivity, efficiency, and profitability, Rooftop Equipment Inc. has 350+ distributors worldwide, and 15 industry solution products developed. The innovation began in 1982, when Bob Burns developed a "one step" dispensing and rolling machine called "The Better Spreader." Bob went on to found Rooftop Equipment Inc., and patented several other solutions to help roofers complete their jobs.

Better Spreader

Doublewide 27" gravity-fed adhesive dispenser. Uses disposable rollers, and features disposable or replaceable parts. Applies adhesives directly from the can.

Tank Spreader

Gravity-fed, uses disposable rollers, and features disposable or replaceable parts. Super 40" applies any pourable material such as low VOC adhesives and coatings from a tank.

Spreader Rollers

Replacement rollers for Better Spreaders and Tank Spreaders. Available in Singlewide 14", Doublewide 27", and Super 40".

Profile Rollers

Patent pending rollers fit onto rib of metal panels, eliminating overspray. 7 standard profiles, plus made-to-order custom profiles. Available in 8" and 14" lengths.

Titan Hand Rollers

Double the surface area to hold more material! 8" rollers with a large 4" diameter.

Patriot Jr.

Static bead adhesive spray rig, available from Amped Equipment (a division of Black Cat, Inc.). Lightweight, easy-to-maneuver, and compatible with 15-gallon drums, jugs, or bag-in-the-box. Available with and without generator.

KARNAK

CORPORATION
THE SEAL OF QUALITY

Karnak manufactures a complete line of coatings, cements, and sealants for roofing and waterproofing. Karnak is the leading manufacturer of Energy Star labeled coatings. Products are rated for fire resistance and wind uplift by UL and FM, and are certified by UL to comply with ASTM Specifications.

Polyester ChemCurb Cartons

7.5" cartons, each containing 4 polyester chemcurbs.

1-Part ChemCurb Kit

Each kit contains a set of round curbs, cartridges of M-1 Cubetainer adhesive, pouches of 1-Part Sealant, and a trowel. Available in 5" and 7.5".

5" Chemcurb Cartons

Each carton contains 6 complete polyester or urethane 5" chemcurbs.

6" Chemcurb Straights Polyester

Each carton contains 8 polyester chemcurbs.

6" Chemcurb Corners Polyester

Each carton contains 8 polyester corner chemcurbs.

The ChemCurb System by Chem Link replaces old style metal pitch pans with versatile precast curb components, pourable sealant, and structural adhesive/sealant. No flashing or mechanical attachment is required and installation is quick and easy. Designed for use on granulated modified bitumen, PVC, EPDM, PIB, TPO single ply, asphalt, and coal tar B.U.R.

12" Chemcurb straights polyester

Each carton contains 8 polyester 12" chemcurbs.

1-Part Pourable Sealer Tubes

(12) 28 oz. tubes per case. Color: gray.

1-Part Pourable Sealer 2-Liter Pouch

4 field packs per carton. 2-part filler. Material can be used in place of the F/S pourable sealer.

Structural Sealant

(16) 10.3 oz. tubes per case. Colors available: black, gray, white.

OMG COMMERCIAL TOOLS

**Hercules® RetroDrain**

Retro fit roof drain designed for existing drain leaders in roofing renovations. 1-piece, seamless body provides strength and durability. Sizes: 3", 4", 5" and 6".

**RAC Deluxe RetroDrain**

Designed for use with single, ply, BUR, and modified bitumen roofing systems. Constructed of aluminum and stainless steel. Sizes: 3", 4", 5", and 6".

**OMG SpeedTite® Roof Drain**

Designed to fit into existing drain leaders in re-roofing applications. Available with clamping ring or TPO/PVC coating. Sizes: 3" and 4". Custom lengths available.

**#12 Standard RoofGrip Drill Point Fastener**

Designed to secure insulation to standard steel and wood. Can be used with several plates. Available in lengths from 1 5/8" to 8".

**Heavy Duty #14 Roofing Fastener**

Designed to secure insulation and single-ply to heavy steel, wood, and structural concrete decks. Available in lengths from 1 1/4" - 24".

**CD-10**

Hammer-in, non-threaded fastener designed to secure insulation and single-ply membrane to structural concrete. Available in 2" through 12" lengths.

**Masonry Anchor**

Attaches channel, lip, flat, or heavy flat termination bars to concrete or masonry walls. Available in 1/4" and 3/16". Lengths range from 7/8" to 2".

**CR Base Sheet Fastener**

Secures base sheets to poured lightweight insulating concrete and certain poured gypsum decks. G-90 galvanized steel, coated with CR-10, pre-assembled with 2.75" diameter galvalume plate.

**MultiPogo**

This fastener installation tool is designed to reduce labor and improve productivity on the roof. The MultiPogo tool is designed to install both OlyLok® and Base Sheet Fasteners.

**Tall Boy Screw Gun**

Lightweight 0-2,500 RPM screw gun with easily adjustable depth. Significantly reduces labor time and costs.

**OlyBond500® Insulation Adhesives**

Fast-acting, two-component, low-rise polyurethane foam adhesive secures insulation to roof decks. 1,500 ml SpotShot cartridges, 10-gallon Bag-in-Box sets, 30 gallon drum sets, and OlyBond500 Canisters available.

**OMG PCPreserver™**

Flushes adhesive residue from PaceCards and maintains pump, hose, and gun assembly lubrication during extended storage.

**OMG Pipe Supports**

Rubber triangle pipe supports available in mini, small, and large.

**OMG RhinoBond®**

Electromagnetic Induction Tool for TPO and PVC membranes. Includes 6 magnets and specially coated plates.

Additional plates sold in pails of 500.

**Spot Shot Caulk Gun**

Lightweight, portable dispensing gun. Designed for use with OlyBond500 SpotShot.

Oly 500 Spot Shot Adhesive

28 oz. tube and plastic tips. To be used with the Spot Shot Application Gun.

**PaceCard 3**

New patented applicator for dispensing OMG OlyBond500® Adhesive. 30 ft. (9m) hose allows maximum rooftop reach and maneuverability.

COMMERCIAL TOOLS

Froth-Pak 200 Foam Kit

Includes: A/B tanks of adhesive, 9' hose assembly, 6-cone nozzles, 4 spray nozzles, Instructions.

Froth-Pak/Roof Pack

One piece per pack.

Froth-Pak 620 Foam Kit

Includes: A/B tanks of adhesive, 15' hose assembly, 8-cone nozzles, 4 spray nozzles, Instructions.

Froth-Pak 15' Gun Hose Assembly

Includes dispensing gun, chemical hoses, and lubricating packet.

Vulkem 116

High-performance polyurethane sealant with superior primerless adhesion. Designed for use on exterior concrete, masonry work, and window and door perimeters. Many colors available.

Vulkem 171 Primer

Quick-drying, moisture-curing primer. Adheres to concrete, plywood, and other porous substrates.

ROLLERS

Silicone EPDM Roller

1-3/4" silicone rubber roller

4" Silicone Roller

4" Silicone Threaded Roller

4" wide x 2" diameter high temperature roller. Optional handles allow user to stand while rolling.

2" Steel Radius Edge Roller

Heavy duty roller with enclosed bearings for smooth rolling. 2" diameter x 2" wide.

4" Steel Roller

4" Steel Threaded Roller

4" Nylon Cone Roller

Fits into tight spots other rollers cannot reach. Heavy duty construction, wood handle.

2" Pick & Roll Seam Roller

The seam roller and weld probe pick combined into one compact tool, making the switch from rolling to picking easier and more efficient than ever before.

75# Stand Up Roller

4" steel roller features rounded corners and detachable handle for transport.

WELD PROBES

AJC Seam Prb Check-Mark Weld Probe

Seam probe and marker combined into one tool. When needed, crayon extends out from tool.

Super Weld Probes

Heavy-duty tool for checking seam welds. Steel construction, extension handle fits into threaded end.

Weld Probes

Designed for checking seam welds. Steel construction, extension handle fits into threaded end.

TORCHES & ACCESSORIES

Detail Torch Kit

Includes torch assembly, UL listed regulator, 25 ft. VL listed hose, and flint striker. Torch length: 20".

Turboroofer Field Torch Kit

Includes torch assembly, UL listed regulator, 25 ft. UL listed hose, and flint striker. Torch length: 35".

Pilot Repair Cord

Extensions

Available in 8", 20", and 28" sizes.

JELD-WEN
WINDOWS & DOORS

Founded in 1960, JELD-WEN is one of the world's largest door and window manufacturers, operating 117 manufacturing facilities in 19 countries. Headquartered in Charlotte, North Carolina, JELD-WEN designs, produces, and distributes an extensive range of interior and exterior doors, wood, vinyl, and aluminum windows, and related products for use in the new construction, repair, and remodeling of residential homes and non-residential buildings. JELD-WEN is a recognized leader in manufacturing energy-efficient products, and has been an ENERGY STAR® Partner since 1998.

Windows

A source of light and inspiration. Countless options to light up your home.

Exterior doors

A welcome mat suddenly seems redundant. Make every entrance a grand one.

Interior doors

Invite style into every room. Design options that create a whole new look.

Patio doors

Blur the line between indoors and out. Innovative new products for wide open living.

ViWin Tech is a leading manufacturer of energy efficient windows to enhance the beauty and value of the home, offering a full line of durable, high quality vinyl windows for replacement or new construction.

6000 Replacement Window

- Available in double hung, picture window, double glider, three lite glider window styles and matching geometric shapes.
- Fully welded frame and sash.
- 3/4" insulated glass.
- Positive interlock at meeting rail for added security.
- Maintenance free constant force coil balances.
- Intercept® warm edge glass spacer system.
- Available in white or tan, and a variety of exterior colors.

2100 Summerfield

- Single hung, double hung, single glider, three lite glider, picture window, and matching geometric shapes.
- Fully welded frame and sash corners.
- Heavy duty weatherstripping on frame and sash.
- Leadfree designer composite cam locks.
- Molded-in sash lift rail.
- Fiberglass mesh screens.
- Intercept® warm edge glass spacer system.
- Available in white, tan, and clay.

The Vinyl Kraft double-hung windows are made with thermal and structural performance in mind. This high-performance vinyl window makes maintenance a thing of the past. Enjoy the beauty, high performance, and maintenance-free convenience that only Vinyl Kraft has to offer. All of our windows come standard with a heavy duty extruded aluminum frame half screen. Full screens are available. Unlike the old screens of the past, our new screens are made of a fiberglass cloth.

Legacy Series Double Hung

The Legacy Series double hung windows from Vinyl Kraft have a longstanding reputation as offering one of the finest values in the industry. Featuring all-welded joints, virgin vinyl construction, and Super Spacer® technology, which is always standard on Vinyl Kraft products. Enjoy energy savings, and improve the appearance and value of your home with Legacy Series windows.

- uPVC all-welded construction.
- eK2 or eK366 glass.
- Argon or Krypton gas fill.
- Dual vent stops.
- Constant force balances.
- 3/4" glass glazed outside.
- Sloped sill.
- Multi layer weather stripping.
- Both sash have recessed tilt latches.
- Available in white or beige.

5500 Series Double Hung

The Vinyl Kraft 5500 Series double hung windows combine outstanding performance with exceptional value. All windows in the series feature all-welded vinyl construction with Super Spacer® technology offering superior retention of Argon gas. Legacy series windows will improve energy efficiency while reducing outside noise and inside condensation. Enjoy a lifetime of maintenance free worry, both indoors and out.

- Foam filled frame and sash.
- uPVC multicavity all-welded construction.
- 7/8" insulated glass.
- Tiltin sash.
- Block and tackle balances.
- Heavy Duty adjustable keeper(s).
- Extruded half screen frames.
- eK2 or eK366 glass.
- Argon or Krypton gas fill.
- Preinsulated foam frame wrap.
- Available in white or beige.

ROOFING SYSTEMS

To all our contractors and customers, I want to thank you for picking up our catalog. It has been designed to make it easy for you to work with us.

At Roofers Mart, reliable service is our primary focus. We are committed to carrying a large inventory, so projects can start on schedule and don't get backlogged by factory shipping delays. Our friendly and experienced inside support staff is trained to provide fast and accurate feedback, so you get your questions answered and your orders processed right away. Lastly, our professional drivers make sure our fleet of trucks arrive at the job site in a timely manner. From top to bottom, our goal is to provide you with the tools to get the job done properly.

For more information on how we can best serve you, check out the website or give us a call at (800) 635-2524.

Sincerely,

Bill Vierling

President, Roofers Mart

Reliable Service

COMMITMENT TO INVENTORY

Our commitment to inventory protects our customers from manufacturers' shipping and production delays. Your schedule, not the manufacturer's, is our priority.

FLEET

Our fleet of trucks includes conveyors, cranes, and flatbeds with Moffetts. The fleet is renewed annually.

EXPERIENCED DRIVERS AND OPERATORS

Very low employee turnover means our drivers know their way around a jobsite and can be an asset to you and your crews.

SHOWROOMS

In-depth accessory items are available in clean, well-lit, fully stocked showrooms.

KNOWLEDGEABLE STAFF

Experienced and seasoned managers, sales representatives, and counter and phone assistance are dedicated to helping your work go smoothly.

WAREHOUSE SPACE

Our three locations in the St. Louis Metropolitan Area make up over 200,000 square feet of under-roof warehouse space. There are some products that should not be stored outside: We have the room to keep them indoors!
